

# Application Reference Guide

USE THIS GUIDE TO HELP WHEN CHOOSING AN ILLUMINATOR

The cells marked with a **BLUE X** are the preferred illuminator for that type of project. The cells marked with a **RED X** will work fine but you need to contact us so we can help you in your decision. If the cell has a **BLACK X**, then special attention must be made to the installation. If the cell is not marked with an X that Illuminator is not recommended for that project.
