

LED Neon Flex™ (Color Jacketed)

Cross Section

LED Neon Flex™ (Color Jacketed) embodies every feature and benefit of the (Grade A) LED Neon Flex with the addition of a colored outer PVC jacket.

In some applications it is more desirable to have the color of the jacket match the color of the light emitted so that in the daytime the LED Neon Flex™ applied design can be seen without the LEDs being powered on.

Typically the LED Neon Flex™ (Color Jacketed) is applied to signage designs or architectural designs that are indoor or outdoor in close proximity to the view of people.

* The Grand Bhagwati, Ahmeddabad, India.

Features and Benefits

- Color jacket matches the LED color emitted for daytime or non-illuminated decorative applications.
- Consistent and Stringent Wavelength control standards +/-5nm.
- New Ultrabright LEDs
- Flexible
- Unique PVC double jacket design with outer layer color jacket
- White PVC Base Layer to increase luminosity
- 100% unbreakable
- 100% waterproof
- Low Voltage Safety
- Low Heat
- Extra Long Life
- Easy to Install
- Low Maintenance Costs
- 1/10 the energy consumption of glass neon
