

Laser Star Fields

Blisslights Laser Starfield

Blisslights LASER STARFIELD PROJECTOR transforms any space into a magical dreamland complete with twinkling stars and an ever-transforming nebula cloud that follows the path of the universe. Thousands of stars, moving on unique trajectories tickle your imagination as you sit back and absorb the beauty emanating from the light. We make paintings out of light that must be experienced with your own eyes to appreciate the fine attention to detail in each work of art.

Take your Blisslight outside and point it at a tree. Close your eyes and pretend to sprinkle Pixie Dust. Open your eyes and turn on your Blisslight - thousands of magical fireflies begin to fly around the tree. Easily transform large outdoor shrubs, trees and plants and add a touch of creative elegance with your Blisslight.

The Blisslight-50 is the pioneering product that started the Blisslight magic. This flagship model incorporates our lighting elements and optics to create an enormous universe of stars. It can cover areas larger than 50' X 50'

**Blisslight-50 -
With DMX**

WOW! That's what people say when they first see the Blisslight, but words cannot accurately describe the experience. This is truly the coolest most amazing light show you will see anywhere! Seeing it challenges your sense of reality.

It's a technological masterpiece with its rugged construction, multi-position mounting system, optional DMX interface and fan less cooling-low noise operation. We custom developed the multiphase diffractive holographic optics and light projection technology. The projector is true plug-and-play. Just plug in the box, turn it on and you are finished setting up in a matter of seconds.

- * Patented Holographic Technology
- * Transforms rooms into Your Own Personal Animated Universe
- * Creates Thousands of Stars with or without Cloud Formations
- * Look for the occasional Shooting Stars Across the Night Sky
- * This is an Experience You Will Never Forget
- * Simple to Use, Just Plug It In

**Blisslight-15G
Blisslight-15B**

The physical size and light source of the Blisslight-15 is smaller than the Blisslight-50, but the WOW factor is still FULL SIZED! The moving stars, the transforming nebula cloud, low noise-fan less operation, rugged construction, multi-position mounting system, and plug and play functionality are included. It creates the same universe of stars in a smaller area. It is capable of covering a 25' X 25' room.

Watch as thousands of moving stars and nebula cloud move and transform, overwhelming you with a calming blissful feeling.

Now available with a [BLUE LASER!](#) Same wonderful effects but with blue stars! Only \$1,500 each!

**LS-20G Green
LS-210R Red**

The BlissLights LS projectors create an explosion of thousands of moving pin points of light. The technology incorporates laser and optical elements to create a breathtaking effect much like a universe of stars.

The Bliss Light LS projectors are specifically developed with a weather proof enclosure for permanent outdoor installations. In addition to the incredible starry night effect, when the Blisslight LS projector is pointed toward trees and bushes, they come alive with light.

Blisslights LED Cloud

The BlissLight LED Cloud creates a splash of whirling color. These Clouds can be used for anything from uplighting a column to making a rock river come to life with color and motion. The ideas are endless; you can combine multiple units with different colors to make different scenes or add these units to your BlissLight 15 or 50 create more color and life.

The BlissLight LED Cloud comes in 8 colors, each unit comes in a different color so you can use one color for simple color lighting or buy all 8 to make a moving with color. Pick from any of these colors: red, red-orange, amber, cyan, green, blue, royal blue and white.

Multiple Effect Star Lasers

Starburst

Sparkler

Red and green lasers create different shifting patterns for a one of a kind experience

POWER: 85-265V AC 60Hz
BEAM ANGLE: >90°
CONTROL: DMX-512 (5 Channels) Sound active , Stand alone
NO VARIANCE REQUIRED
LASER DIODE: 1 x 100mW Red laser diode ,1 x 30mW Green laser diode
LASER COLOR: Red/Green
ADJUSTABLE STAND HEIGHT: 5" (fully extended)
UNIT WEIGHT: 4.5 Lbs
UNIT DIMENSIONS: 12 In x 4.75 in x 4.5 in
SHIPPING WEIGHT: 5Lb (Single unit) 35Lb (Master Pack of 6)
SHIPPING DIMENSIONS: 14 In x 6 In x 7 In (Single unit)
